A groan rattled in his throat He raised his hands as if fending me off. The groan rose hi pitch, becoming an hysterical keening. The expression on his face was too horrible to watch. He stepped backward and tripped over the suitcase.. "All right. But the fact remains that you're the closest thing on Mars to a pilot for the Podkayne. I think you should consider that when you're deciding what we should do." He shut up, afraid to sound like he was pushing her..with a six-pack, and we sat around most of the rest of the day, drinking beer and talking. He's up for. "You're right," said McKUlian. "I don't really know. But I have a theory. Since these plants waste nothing, why not conserve them" bodies when they die? They sprouted from the ground; isn't it possible they could withdraw when things start to get tough again? They'd leave spores behind them as they retreated, distributing them all through the soil. That way, if the upper ones blew away or were sterilized by the ultraviolet, the ones just below them would still thrive when the right conditions returned. When they reached the permafrost, they'd decompose into this organic slush we've postulated, and. . . well, it does get a little involved, doesn't it?". The design could not feasibly be modified at this late stage. Too many things would have to be thought out again from the beginning, and such a task would require decades. And yet, nothing comparable to SP3 is anywhere near as advanced a stage of design at the present time, let alone near being constructed. The opportunity is unique and cannot, surely, be allowed to pass by. But at the same time we cannot afford the delay that would be needed to take advantage of that opportunity.
